

Shelton State Community College
BROOKS-CORK LIBRARY

Fredd Campus Branch Library

In addition to the main library on the Martin Campus, Shelton State Community College offers library services on the Fredd Campus. This branch library houses approximately 1,000 general interest books and several current periodical subscriptions. It is connected to the main library through **Shelby**, the electronic library catalog, so all information about library resources is available on the Fredd Campus.

Library hours on the Fredd Campus are as listed below. Additional help is available by phoning the library faculty and staff on the main campus (see names and numbers below).

Monday--Friday 8:00 a.m.--12:00 p.m. (except Wednesday mornings)
1:00 p.m.-- 4:00 p.m.

Library cards are available at the circulation desk in the Fredd Campus branch. Students should get new barcodes but employees may use their old cards and barcodes unless they wish to use UA or Stillman College libraries. To use these libraries, new cards must be acquired or stamped for the current semester. This can be done at the circulation desk on either campus.

To place items on **Reserve**, contact Jean Mack at extension 2622 or stop by the library office on the Fredd Campus. You may also place items on reserve at the main campus library. To do so, contact Tran Moore at extension 2381 or drop by the AV/Reserves desk. A **coin-operated copy machines** are available in both libraries. The machines on the Martin Campus accept change, bills, or copy card; the machine on the Fredd Campus accepts change only.

Two **electronic databases** are currently available for faculty and student use. **Vocational Search** is a full-text database on general and vocational education topics. Articles can be printed from the computer. **Facts-on-File CD-ROM** is a full-text database of news and current information from news sources around the world. Articles can be printed directly from the computers for these sources. Once inter-campus networking is completed, all electronic databases based at the Martin Campus will be available to students on the Fredd Campus.

Internet/WWW workstations are available in the Electronic Classroom (212), the Internet/Webmaster lab, and the Math Lab on the Fredd Campus. Additional Internet workstations are available on the Martin Campus in the library and the Victor Poole Learning Center (formerly the Success Center). **E-mail accounts** are available for college employees who are connected to the inter-campus network. Contact Debbie Grimes at ext. 2233 or Chuck Boening at ext. 3908 for information on how to get an account established. Netscape software is available for loading at no cost.

To schedule audiovisual use for items that are not already housed in the shop or department, contact Jean Mack at extension 2622. For additional AV information, contact Jean Epps at extension 2670 or Sully Cochrane at extension 2248. **Laptops and computer/data projection equipment** are available on each campus. Contact Jean Mack to schedule it.

Individual or group viewing for students is possible in the AV area within the library on the Fredd Campus. This service is also available in the new campus library if your students need extended hours.

The following **periodicals** are available in the Fredd Campus Branch Library. Subscriptions for starred titles will begin in January 1999.
